The Conrad Group recently negotiated a \$3million sale of Braintree's Ainslie Building to McCourt Construction Co. The property is located at 515 Pond Street, just west of the "Five Corners" commercial district.

For more than three decades, Ainslie Corp. used the 9.25-acre site's 62,000-square-foot building to construct microwave antennas and related equipment. McCourt plans to occupy about a third of the building and lease out the rest.
